

Keith M. Hume M.A. is the Executive Director of the Society of Interventional Radiology (SIR) and the CEO of the Society of Interventional Radiology Foundation, SIR's affiliated foundation. The SIR is an educational, research and scientific association organized to improve patient care by raising and maintaining the standards of the medical practice of interventional radiology. The Society supports more than 8,000 physicians, scientists, and allied health professionals worldwide who are dedicated to improving patient health care through minimally invasive, image-guided treatments. Mr. Hume works with SIR members and staff, corporate partners, government and international organizations to advance patient-centered care and image-guided therapy by fostering high standards of training, ethics, physician practice, research, and innovation in interventional radiology.

Keith Hume has nearly two decades of experience leading organizations in the health care association sector. Prior to joining SIR in January 2021, Mr. Hume served as Senior Vice President of the American Society of Plastic Surgeons. He has also held Executive Director roles at The Plastic Surgery Foundation and the Society of Interventional Radiology Foundation. Mr. Hume has authored numerous peer-reviewed manuscripts and is the recipient of several awards. He is also active on committees and boards for several medical-related organizations. Keith Hume holds degrees from The College of William and Mary and The University of Georgia.
