

PETE STIBBS

30806 Pumpkin Ridge Drive, Wesley Chapel, Florida | 863-226-7417 | pete.stibbs@argonmedical.com

EDUCATION

The University of Nottingham
DHSci, Doctorate in Health Sciences
(Focus in Vascular Biology and Venous Research)
Royal Derby Hospital, England

The Johns Hopkins University
Graduate Program in Clinical Trial management
Baltimore, Maryland, USA

Weber State University
RPA/RRA Studies/Minor in Advanced Radiological Sciences
Cum Laude
Ogden, Utah, USA

Adjunct Professor, Department of Vascular Medicine, University of South Florida, Morsani School of Medicine.
Tampa, Florida, USA

Chronological Experience

Lakeland Vascular Institute/ RIS Imaging /USF

May 2014-Present

- Vascular Interventionalist providing the full range of diagnostic and Interventional services in conjunction with *scope of practice and facility credentialing.*
- Fully versed in performing all manner of diagnostic fluoroscopy procedures
- Able to perform initial pathology identification and preliminary dictation of observations on multiple modality examinations.
- Well versed in patient management including pre- and post-procedural care, in-patient rounding,
- History and Physical patient assessment and post hospitalization discharge.
- Fully versed and efficient in soft tissue biopsy using multiple modalities.
- Tube mitigated drainage, exchanges and placement of catheters
- Multiple joint arthrography, steroid injection and pain management procedures
- Myelography and LP procedures
- Vascular access including hemodialysis catheter insertion
- Venous procedures including: ambulatory phlebectomy, RFA and laser ablation, and Sclerotherapy
- Trained in arterial and venous intervention including diagnostic peripheral arteriography, AVF and graft thrombectomy, and IVC filter placement.
- Active passion for Radiology business consultation including practice development and effective marketing strategies that reflect current business trends and reimbursement models.
- Per Diem services for Lakeland Vascular Institute/ RIS imaging on active staff at 4 hospitals 2014-present
- *Adjunct, University of South Florida, Morsani College of Medicine, Tampa, Florida*

Interventional and Diagnostic Consultants, INC. (*The Watson Clinic LLP*) June 2008-May2014

- Vascular Interventionalist providing the full range of diagnostic and Interventional services in conjunction with *scope of practice and facility credentialing.*
- Fully versed in performing all manner of diagnostic fluoroscopy procedures
- Able to perform initial pathology identification and preliminary dictation of observations on multiple modality examinations.
- Well versed in patient management including pre- and post-procedural care, in-patient rounding, History and Physical patient assessment and post hospitalization discharge.
- Fully versed and efficient in soft tissue biopsy using multiple modalities.
- Tube mitigated drainage, exchanges and placement of catheters

- Multiple joint arthrography, steroid injection and pain management procedures
- Myelography and LP procedures
- Vascular access including hemodialysis catheter insertion
- Venous procedures including: ambulatory phlebectomy, RFA and laser ablation, Sclerotherapy
- Trained in arterial and venous intervention including diagnostic peripheral arteriography, AVF and graft thrombectomy, and IVC filter placement.
- Active passion for Radiology business consultation including practice development and effective marketing strategies that reflect current business trends and reimbursement models.
- Per Diem services for Lakeland Vascular Institute/ RIS imaging on active staff at 4 hospitals. 2014-present

Abbott Vascular, Santa Clara, California

May 2009-Sept.2010

Clinical Consultant/ Endovascular/Peripheral Division

- Clinical consultant per diem educating physicians on vascular closure
- Conversion of business from other closure devices to Abbott closure systems
- Sales and service support for Star Close and Star Close SE

Citrus Memorial Health Systems, Inverness, Florida

July 1996-November 2011

Clinical Instructor of IR/Radiography MCSRT/ IR/ Vascular Supervisor/Physician Extender

- Lead of Interventional Radiology in a full fusion lab
- Experienced in all aspects of Endovascular Intervention including PTA, Stenting, Laser, Mechanical Atherectomy, Cryo Therapy, Coronary Intervention, IABP, Structural Heart, Hemodynamic Monitoring, LVAD, and Impella.
- Managed all aspects of SIR Billing, Coding, Supply and Scheduling issues
- Led the project converting the lab to full DR and PACS integration.
- Increased lab revenue by 32% by implementing direct marketing and referring physician information sessions
- Named clinical instructor of the year for 2003,2005,2007and 2008 by MCSRT, Ocala, Florida

Rheolytic Technologies, Manassas, Virginia

February 1995-July 1996

Clinical Support Specialist

- Provided clinical and sales support for a rheolytic style thrombus extrusion system
- Provided the marketing and clinical support that resulted in a trial at Walter Reed Army Medical Center, Washington, D.C.
- Worked closely with two territory managers to reach top producer status in three out of four quarters

US ARMY/USAR

February 1993-February 2003

Vascular Lab Tech/Combat Medic (DEP/ US Army/USAR)

- Worked as a team leader in a high end interventional lab
- Served as Lead Technologist in neuro intervention
- Served as department liaison in clinical trials
- Combat Medic

ADDITIONAL INFORMATION

- Actively involved in the Association of Vascular and Interventional Radiology (AVIR) as a lecturer on Interventional Radiology, Vascular Medicine and Medical device industry topics
- Speaker for Florida Vascular Society- Trends in PTA and Atherectomy therapies.
- Radiology and IR clinical instructor_- MCSRT
- Florida Licensure – Radiologic Technology – License # 49108
- Received training as a Combat Medic in the U.S. Army
- Florida Licensure-Radiologist Assistant-License# RA 41
- NPI #1356627335
- Current BLS and ACLS qualification
- Passed the Board Exam of the Certification Board of Radiology Practitioner Assistants

- Active registries in Radiography, Vascular Intervention, and Radiologist Assistant (Mid-Level Provider) through the American Registry of Radiologic Technologists
- Member of the American College of Phlebology
- On active medical staff as a mid-level provider of care at:

Lakeland Regional Medical Center/ Orlando Health, Lakeland, Florida
Winter Haven Hospital/ Bay Care, Winter Haven, Florida
Baptist Hospital South Florida/Bay Care, Plant City, Florida
Bartow Regional Hospital, Bartow, Florida

Publications, Clinical Research and Presentations

- Michigan State University/ Spectrum
Presentation: The current state of thrombectomy and PE prevention: Trends, Studies, Speculation
March 2018
- University of St. Louis/ Wash U
Presentation: DVT development and new treatment algorithms
November 2017
- University of Washington
Presentation: *Vascular Access: Old problems, new solutions. A view of percutaneous fistulization.*
April 2017
- AVIR Chicagoland Chapter, Chicago, Illinois
“What the Fistula: How IR plays HeRO to ESRD patients.”
April 2017
- University of Buffalo, Angio Club Meeting
Presentation: *Innovative Percutaneous AV Fistulization, New Technologies Changing Dialysis Access.*
March 2017
- Society of Interventional Radiology, Scientific Meeting, Washington DC
Presentation: *Trans jugular Biopsy and the TLAB device. A review of a retrospective, single center patient study, Rush University Medical Center.*
March 2017
- Vascular Interventional Advances Conference, Las Vegas Nevada
Presentation: *Complex issues in IVC filter placement and retrieval*
Hands on instructor representing Argon Medical Devices OptionElite IVC filter system.
September 2016
- Polish Society For Vascular Surgery, Annual Scientific Meeting, Zakopane, Poland
Presentation: *The use of modern methods of mechanical thrombectomy in treatment of venous thrombosis.*
June 2016
- Hadassah Medical Center, Jerusalem, Israel, Department of Vascular Medicine
Presentation: *Controversies in IVC Filtration and Current Anticoagulant trends.*
June 2016
- Society of Radiology Physician Extenders, New York City Meeting

Memorial Sloan, Mount Sinai, NYU, Memorial Sloan Kettering, Montefiore
Presentation: Medical management of patients post Varicose Vein Intervention
April 2016

- University of Minnesota, Department of Radiology and Vascular Surgery
Presentation: A brief history of DVT treatment, from Ligation to Filtration
April 2016
- Centre hospitalier universitaire de Quebec
Presentation: Thrombectomy and the need for synergistic technologies
April 2016
- University of Colorado, Department of Vascular Surgery, IM, IR
Presentation: Venous Disease and Synergistic Medical Algorithms- The team approach to reduce morbidity associated with Venous Thromboembolic Disease and a review of the ATTRACT and CAVENT trial.
March 2016
- Academy of Radiology Physician Extenders, Annual Scientific Meeting, Orlando, Florida
Presentation: Understanding new anticoagulant protocol and their impact on percutaneous interventional procedures. An overview of the Society of Interventional Radiology and Society of Vascular Surgery protocols.
March 2016
- University of Michigan, Ann Arbor, Department of Surgery and Vascular Radiology
*Presentation: Percutaneous Thrombectomy and Complex IVC Filter Retrieval
Didactic and Hands on practicum with Lazar Greenfield M.D and Kyung Cho M.D
Live Animal Lab, Co- Presenter and Proctor*
January 2016
- University of Toronto, Family Medicine Symposium, in conjunction with Department of Surgery
Presenter: If my patient has this, than I do that: A review of new treatment methodologies for vascular management. DVT awareness mini- symposium.
November 2015
- Vascular Medical Symposium, Chalkida /Athens , Greece
Vascular Access Society
*Clinical Trial Initiation: Cleaner Pharmomechanical Thrombectomy for DVT treatment
Preliminary Review: Clinical trial of Cleaner Mechanical Thrombectomy Device for DVT
In conjunction with: P.I. Cuneyt Koksoy M.D, University of Ankara, Turkey*
September 2015
- Parallon HCA GPO presentation, National Headquarters Nashville, TN
*Presentation and Clinical Defense: Product comparatives in minimally invasive intervention.
Case Presentation and Discussion with the clinical review committee and Chief Medical Officer of Parallon, the largest GPO/HMO in the world. – This initiative resulted in a sole source contract for Argon Medical devices in soft tissue biopsy and breast biopsy.*
August 2015

- *Argon Medical Devices, Dallas, Texas*
Clinical Presentation for Regulatory: Comparing latest research and Clinical studies to help guide product approval from Health Canada, The FDA, and obtaining CE mark for the Cleaner Thrombectomy system for indication in venous thrombectomy outside of the AVF/Graft indication.
May 2015
- *Arizona State University, University Medical Center, Tucson, Arizona*
Presentation: The role of the physician extender in the health care Continuum.
April 2015
- *Association of Vascular Interventional Radiology, South Florida Chapter, Miami, FL*
Miami Vascular Institute (Formerly BCVI), University of Miami College of Medicine
Poster and Presentation: A history of IO, from Charles Dotter to Y90 embolization
February 2015
- *University of Florida, Shands Hospital, Gainesville, FL , Residents Seminar*
Poster and Presentation: Clinical recognition of PVD, Pearls for the PCP.
November 2014
